IN THE HEART OF THE CITY

The Art Hotel is located barely within 20 minutes by car away from the Wrocław-Strachowice airport. As few as 10 minutes separate us from the main railway station, whereas the Wrocław Old Market Square, so bursting with life both day and night, can be found merely a few steps away. There's no better location in Wrocław than 20 Kielbaśnicza Street. Here, the whole city is just within your reach!

FOREVER ART'S

Where history entwines with modern arts, where the past and the present become one, our Art Hotel is hidden. A picturesque gallery of artistic passions unified with the magic of past ages, a gem of the city, indeed. We've given a new life to these two old tenements. Now it's an oasis of elegance and sophistication with such a cosy touch. Our walls give a delicate background for the paintings mastered by the high society of our local artists. And if you're attentive enough, you'll surely find a whole myriad of architectural details hidden deep amidst our interiors.

The image shows the entrance of the Art Hotel. A red sign with the words "ART HOTEL" in white capital letters is mounted above a glass canopy. Below the sign are four white stars. The canopy is supported by a metal frame and has a curved glass top. To the left, a brick building with a colorful tiled roof is visible. To the right, there are green plants and a security camera mounted on the wall.

GASTRONOMY OFFER

A man does not live on work alone. That's more than certain. Therefore, once your conference or training is over, you just need to load your internal batteries anew. Yet have no fear, a nutritious meal and a cup of good coffee will help you back on your feet again. The Art Restaurant will surely seduce you with dishes which not only caress your palate, but also make you recover after this tiring event. Needless to say, a great asset of ours are regional products to which we owe our membership in the European Network of the Culinary Heritage Association and a crucial position on the culinary route named Flavours of the Lower Silesia.

Those looking for extraordinary impressions should definitely try the dishes marked as the Taste of the Lower Silesia, hidden on the cards of our menu. Almost forgotten, these dishes are now brought back to life by our fabulous Chef, Grzegorz Pomietło, so that they can impress further generations over the ages to come.

Yet, the starring role is always played by people. They call the shots here. For 20 years now we've been taking care of our Guests, including those on special diets.

The Culinary Heritage Association

of producers, processors and restaurateurs keeps the regional cuisine alive and helps it thrive for the future generations.

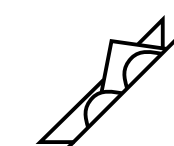

The Flavours of the Lower Silesia
