# Location

The historic tenement house in which our hotel is located is situated in the Old Town district, next to the Main Market Square. Our guests are only 5 minutes' walk from the most important tourist attractions of the city, i.e. Kraków Cloth Hall and St. Mary's Church. In addition to monuments, the Main Market Square is a space where numerous cultural events and fairs take place, including the famous Christmas market, considered one of the most beautiful in Europe.

A few minutes' walk from the Hotel is enough to see the legendary dragon and the Wawel Royal Castle. A place hides an extraordinary history and valuable monuments, including the Royal Sigismund Bell cast in 1520.

# Lobby

The hotel lobby is a space where guests cannot only relax after a trip. It is a place full of unique albums, foreign magazines and guides from all over the world. Comfortable sofas, armchairs, puffs and warm light provide guests with comfort and convenience. A SMART TV with satellite channels completes the zone.

You can find a souvenir shop straight from Krakow in our lobby. Hand-painted ornaments, embroidered napkins or leather notebooks are just some of the objects made by local artists that you can buy as souvenirs.

# 4 types rooms

The newly opened hotel space includes 49 air-conditioned rooms divided into 4 categories:

**CLASSIC  
SUPERIOR  
DELUXE

The restored rooms are characterized by modern design and attention to detail. The designed spaces are a unique combination of patterns, textures and colors. In the hotel we find, among others shades of gray, navy blue, brown and the elements of gold, silver and powder pink.

# *Restaurant “Pod Piątką”*

The completed modernization of the hotel is also a new chapter for the hotel restaurant. From now, guests can enjoy Polish cuisine with a local accent in the restaurant "Pod Piątką". It is a concept that combines care for the quality of products and their origin, as well as modernity in the form of sophisticated flavor combinations of a very modern cuisine. The menu is complemented by a dedicated alcohol card with wines selection.

The design is an another advantage of this place. Old brick, lots of mirrors, velor and soft light. The whole looks a bit mysterious and classic at the same time.

The possibility to enjoy our offer involves hotel guests for whom the breakfast is included in the room price, and Krakow residents.
