WINE LIST

VINUM BONUM LAETIFICAT CORHOMINIS (Good wine gladdens the heart of man)

Dear guests, I believe you will find a selection from our wine list that will meet your expectations. Every year we visit individual wineries, and our sommelier, Ing. Samuel Barantal, selects the very best from their current vintages. Often these are day-long trips with a significant amount of various samples. They tend to be three demanding days full of wine, after which it is not easy to jump back into the work rhythm. This year, we have prepared three new additions for you.

The first is wine from the production of **Forests of the Slovak Republic**.

The second novelty is the **1962 Reserva** wine.

It is a Rudava variety introduced to us at the Velkeer winery. With this wine, we immediately took notice and agreed that we had never tasted a better red wine. When the owner, Ing. Tomáš Sládeček, informed us it wasn't for sale due to limited quantities, the idea struck us to reserve it exclusively for our manor house and sell it under our own brand. Given its exceptional quality and its connection to our manor, it is simply a TOP product for you. We named it „1962“ in connection with the legendary vintage traditionally remembered in Oponice as an exceptional year for its harvest, sun, and grape processing. The result was a vintage that achieved extraordinary awards and is still remembered in Oponice today as one of the most legendary.

The third novelty is the **V4 wine selection**, which features choices from our neighbors in the Czech Republic, Hungary, and Poland. We thought we would try an offering that no one else has come up with yet. It is during our evening visits to these wineries that we get our best ideas, and that was the case for the V4 wine concept.

From the Czech Republic, we went for a sure bet with the **W18 winery**. It is a typical Moravian winery with characteristic aromas. Interestingly, their boss, Radim Kolmaš, entered into marriage here at our manor. For Hungary, the company **WINELOVERS** assisted us with the selection. We thank their head, Roman Milata, for his help in selection and supply. Poland was a very tough nut to crack; even seasoned winemakers couldn't help us there. We discovered that no one knows Polish wines, and no one in our circle had ever tasted them. No Polish winemaker responded to our emails in either English or Polish. No one imports Polish wine, and when searching the words „Polish wine“ in Slovakia, even Google reached its limits. After three fruitless weeks of waiting, numerous calls, and urgings to multiple Polish producers, our V4 dream began to fade.

Then we remembered one of our most legendary teambuildings at Slaná Voda, which is just over the hill from Poland. We called the host, Janko Herud, who was also surprised by the term „Polish wine“. But knowing him, „it's not possible“ is not in his vocabulary. He mentioned he travels to the city of Bielsko-Biala every week and if we found any Polish wine there, he would bring it to us. The skies cleared, and the computer search engine offered us www.kapkawina.pl, and with that, we finally reached our goal. We thank Mr. Petr Kaspřák for his professional help and selection. We thank Mr. Janko Herud for the transport and for the beautiful memories of the Orava region.

Boss, Samo, Feri, Peťo, Tomáš, Radim, Roman, Janko, Mr. Kaspřák —
THANK YOU.
