

SIELANKA SPORT CENTER

FOOTBALL CENTER IN THE HEART OF POLAND

SIELANKA SPORT CENTER

One of the best football centers in Central Europe was established right in the heart of Poland, between the ancient Puszcza Stromecka Forest and the picturesque Pilica River Valley.

Sielanka Sport Center includes modern football facilities that are part of the sports and leisure complex covering 100 hectares. Football players have at their disposal full-size pitches and training fields with natural, high-quality grass sown on them. Effective drainage system, safety nets, covered coach benches, security zone, and an option to install stands for several thousand fans meet the highest UEFA standards.

During Euro 2012, Sielanka was one of the base camp facilities recommended by UEFA. The Croatia national football team stayed here. Moreover, the Poland national football team with their captain, Robert Lewandowski, have stayed here a number of times. The center hosts also training camps for football teams.

ADVANTAGES

REFERENCES

Sielanka Sport Center obtained the recommendation of UEFA thanks to which it became of the Polish base camp facilities during UEFA EURO 2012. Training facilities, perfect location, and high level of comfort were appreciated by many national teams as well as sports club that had their training camps in the SSC in the breaks between matches and before the most important matches of the season.

The Croatia national football team prepared for their UEFA EURO 2012 matches in Sielanka Sport Center. Moreover, the Poland national football team stayed

here before their international matches played in Warsaw during the World Cup qualifiers and the European Championships qualifiers. We had Polish and foreign football clubs stay with us and over a dozen games were played on the main pitch.

- I have been to many base camp facilities with the national football team of my country, first as a player and now as a head coach. We have been e.g. in France, Portugal, Austria, Switzerland, Germany, Korea, and Japan but it is the stay in Sielanka that I have the fondest memories of.

LOCATION

Perfect location close to the most important sports facilities and international airport in Warsaw.

The center lies to the south of Warsaw (50km) between the picturesque Pilica River Valley and the ancient Puszcza Stromecka Forest. Thanks to the location in the center of one of the most beautiful canoeing routes in Poland and vicinity of Natura 2000 protection areas, football teams staying in the center can work in the perfect climate conditions, close to nature, and surrounded by the peace and quiet.

AVERAGE TEMPERATURES IN POLAND:

- Sielanka offers great conditions if you want to isolate yourself, get some rest, or focus. Furthermore, we have very good training facilities. The pitch is in view so you don't have to drive anywhere. Everything here revolves around the preparation to important games in the World Cup qualifiers. This is why we chose this place.

TRAINING FACILITIES

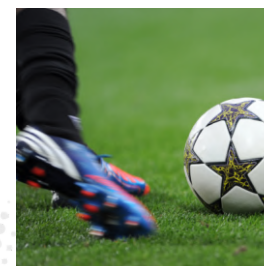

We are one of the very few football centers in this part of Europe that offer luxurious conditions for leisure as well as full training facilities: training fields, wellness, and training rooms. This means that football teams can meet their preparation targets without leaving our grounds.

- ✓ Size of the main pitch is 105x68m plus security zone at the sides.
- ✓ Smaller training field (35x68m) is intended for goalkeeper's training.
- ✓ Private location surrounded by beautiful nature.
- ✓ Safety nets behind the goals and covered benches for coaches and players.
- ✓ Training facility located only 100 meters from the hotel.
- ✓ An option to install portable stands for 4 thousand fans.
- ✓ Effective system of drainage and watering.
- ✓ Natural, specialist grass sown on the fields.

The scenery around the hotel and training field is beautiful and Sielanka's location on the Pilica River, far from the city and the hubbub of the streets, provide very good conditions for training. This place is similar to Dutch training centers, often used by the football clubs from Belgium. Best place for training!

Besnik Hasi
former coach of Legia Warsaw

- The most important element of this football center is grass. It is awesome that we have such a place in Poland. It is the equal of great training centers regularly visited by the Bundesliga clubs in the breaks between seasons.

AND AFTER TRAINING...

Sometimes even the greatest fans of football need to have a rest from it. Our offer includes a wide range of attractions that add variety to the time free from trainings and theoretical sessions.

Infrastructure of the hotel complex and sports center allows for the organization of various additional activities that make the stay in Sielanka more appealing and help to forget for a moment about the difficulties experienced during the football camps.

- ☑ Horse riding and open carriage rides in the charming Puszcza Stromecka Forest.
- ☑ Canoeing along the picturesque Pilica River Valley combined with unique catering.
- ☑ Beach volleyball, badminton, billiards, table tennis, etc.
- ☑ SPA zone and Garden SPA.
- ☑ Cycling trips and Nordic Walking.
- ☑ Exploring Warsaw: selected monuments or any attractions chosen by the guests.

- We feel great here. It is a very peaceful place that ensures conditions essential for full focus before the EURO 2012 matches. Everything is perfectly organized. The pitch is three minutes' walk from the hotel. Our Federation made a right choice when they were selecting our base camp.

RE: Leicester City U23s Poland pre-season training camp – July 2018

We were highly delighted with our recent pre-season camp in Poland, organised by the Royal Sports Management. From the moment we arrived, Pawel and the staff at the Sielanka hotel were attentive, professional and ensured that our schedule was met. The food and the facilities at the Sielanka hotel were first class, exceeded our expectations and we are already looking to returning there in the future. The quality of the training pitch and the two friendly games organised at the training base were ideal for our preparation, enhanced by the surrounding area.

Pawel facilitated an excellent training schedule, supplemented by bike hire for all players and staff to enjoy morning cycle rides in the local woodland.

We would defiantly recommend this venue and Royal Sports Management as a facilitating company to any club looking for a training camp in the future.

We certainly will be.
