TRI-CITY WONDERS

The Tri-City is shaped by places that matter — places that hold memories and define everyday life.

That's why this menu features cocktails inspired by selected landmarks of Gdańsk, Gdynia and Sopot — places every local knows and feels connected to.

Their character has been translated into flavours and aromas, creating cocktails that act as short, sensory portraits of the locations that define the rhythm of this coastal region.

If none of these flavours feel right for you, or you're looking for something different — talk to our bartender. We'll be happy to create a cocktail tailored to your taste.

For reservations of more than 6 guests, a 10% service charge applies.

Poland's gateway to the world — raw, industrial and constantly in motion. This cocktail reflects the harbour eclectic energy, blending depth and warmth with an exotic touch inspired by distant voyages.
