Kraków Artistic Meetings – Territories

26 May – 31 July 2022

Art Palace, No. 4 Szczepański Sq.

Kraków Artistic Meetings is a project presenting the work of Kraków artists of multiple generations within the aspect of interdisciplinarity and multimedia. The exhibitions will present drawing, sculpting, book art, paper art, photography and graphics.

The meetings always feature a leading motto proposed by the organisers – in 2017 it was 'Configurations' and two years later it was 'Dialogues' –and this time it was suggested to the artists enrolling for participation in the 3rd edition of the project that 'Territories' be the leading theme. 'The motto addresses the broadly understood areas of human functioning in terms of the place of living and working as well as a private space limited by external or internal standards, conditions or circumstances. The starting point for the works presented at the exhibitions is the reference to the global COVID-19 pandemic announced in the spring of 2020, which changed the world, and to the perception of humans in terms of freedom, independence, safety and an unexpected threat' – explains Joanna Warchoł, the president of APAD KB.

31st JEWISH CULTURE FESTIVAL | WATER

24 June – 3 July 2022

The Jewish Culture Festival in Kraków is the greatest presentation of contemporary culture created by Jews all over the world. In 1988, Janusz Makuch and Krzysztof Gierat decided to remind the society about the Jewish history of Poland and the contribution of Jews to the development of our country and its culture and society. It was a successful attempt to restore the memory of Polish Jews and honour those who, having lived in Poland for centuries, were either murdered during the Holocaust or forced to emigrate in the years after the war.

From an intimate event, the JCF has grown to be one of the most important cultural events of our city and country, and one of the most famous outside Poland. It is one of the most recognisable brands of our city. Each year, the 10-day festival presents almost 300 events (in the main and supporting programmes), drawing about 30,000 people from all over the world who participate in workshops, lectures, discussions, sightseeing and of course attend concerts and other musical events. 150 artists, lecturers and instructors share their experience and achievements in the development of Jewish culture with our audience. To us, authenticity and truth are the most important values.

21st Conference of the European Association for Potato Research

21st EAPR Triennial Conference

4-8 July 2022

Expo Kraków, no. 9 Galicyjska St.

Come the beginning of July, due to a unique event – the European Association for Potato Research – Kraków will be visited by scientists from all over the world, whose work focuses on this seemingly unimpressive vegetable.

This conference has taken place every three years in various European countries since 1960. This will be the second time the conference has been hosted in Poland and first time the honour to host it has been given to Krakow. It is worth pointing out that according to the 2020 data of Eurostat, Poland is ranked second among the countries of the European Union in terms of potato production. In terms of potatoes, we are bested only by Germany, which in 2020 grew 21.2% of all the potatoes produced in the EU. The potato, which we all know and is often on our tables, isn't just a satisfying food, it's also a subject of numerous research papers. As exemplified by the upcoming conference at EXPO Kraków, the potato has fascinated scientists for years. During numerous panels, all the important topics related to the potato will be addressed, from basic and applied research, cultivation, and the application of new technologies, to the technical and economic aspects of its production, storage and processing, as well as advisories of different kinds. It will surely be a memorable event, which will bring together hundreds of experts in the same place and time.

Miłosz Festival

7-10 July 2022

Potocki Palace, No. 20 Main Square

Since the beginning, the Miłosz Festival has been a unique, strong commentary about the surrounding reality – political, social or cultural – and we consistently believe that it cannot go away, especially considering the challenges which we are facing in these and the upcoming years.

Since the beginning, we have been open to the poetic environment, to famous and debuting male and female authors, to small and large publishers, to poetry attracting the crowds and to small-scale literature. We are certain that this makes the project so valuable, which is why we want to continue the fruitful cooperation with the nationwide Polish poetic environment and the invaluable Programme Council and Honorary Council of the Festival. We hope to keep making this exceptional and diverse polyphony of poetic tales, and expand it with new ones.

Capella Cracoviensis: Nature Lovers

An outdoor performance

22 July 2022, 6:00 p.m.

Wolski Forest

In July, Capella Cracoviensis takes music outdoors. A spring night, the green shadow of lime trees, the tolling of bells, the gently rolling waves in a lake, the song of a skylark, an autumn song, the call of a nightingale, the rustle of trees – these sounds can be heard not only in nature. They also resound in Felix Mendelssohn's Songs for Singing in the Open Air (*Lieder im Freien zu singen*). The composer wanted to put into practice a thought which occurred to him almost two centuries before the iPod: 'Music is only natural when four friends going for a walk in a forest can take it with them and within them.' The singers of Capella Cracoviensis and Cezary Tomaszewski, the author of the concept and director of Nature Lovers, decided to honour the composer's will very literally – and while returning to a project from a decade ago, they will again sing these songs... in a forest.

Nature Lovers is a project – a collaboration – a combination of songs, outdoor theatre and forest scouting. The audience transported to a starting point and equipped with maps will stroll across the Wolski Forest, looking for further musical and theatrical surprises. All it takes is to book a ticket and arrive at the prearranged location. A compass, packed food, anti-mosquito lotion and a picnic blanket are not compulsory, though they may prove useful.

An old Polish proverb says ‘It’s dumplings, not quoins, that make a house rich’ – so Kraków is one of the richest cities in the world! This can be evidenced during the Dumpling Festival held every year in August. The highlight of the festival is the competition between food stands for two prizes: the statue of St. Hyacinth with dumplings awarded by a jury, and an audience award – the statue of Casimir III the Great.

Anyone who has visited the Small Square, tasted the offered products and filled in the coupon can vote for the best dumplings. Apart from several days of feasting and learning the sometimes previously unknown flavours of dumplings, the festival is accompanied by an artistic and musical programme, culinary workshops, flower shows, the traditional blessing of herbs as well as a contest for the most beautiful herbal bouquet.

The Dumpling Festival inaugurated in 2003 by the KBF is currently organised in cooperation with the Kraków Congregation of Merchants.

The Dragon's Birthday – an outdoor picnic

14 August 2022

In August 2022, a medieval settlement created by the Vistula Warriors reconstruction group will be built in Błonia Park in Kraków. It will have attractions for children and adults; for example, it will be possible to witness the work of a blacksmith and a potter, listen to a medieval musical ensemble, and even participate in old plebeian games.

For the Wawel Dragon's birthday, Kraków is planning an extraordinary event: the creation of a living image of the legendary beast consisting of volunteers in Błonia Park, with a drone aloft above it recording everything. The city is hoping for lots of people to turn out and participate in the fun – perhaps they will set an attendance record!
