The package includes exciting adventures in nature, such as canoeing on a lonely wilderness lake Lutto, riding electric fat bikes near Saariselkä and the much-loved animal activity - hiking with huskies. Another sure hit with the kids is the Angry Birds Theme park visit. You also get to relax in the saunas and pools of the Saariselkä Spa.

One of the most special experiences is a full day fishing trip to the great wilderness lake Inari. You get to try your luck catching arctic char, trout and huge (10+ kilogram) pikes. Trip includes a family picnic on a small island. Lake Inari was chosen

by CNN as the most beautiful place in Europe, in 2019.

Even though the nature of Lapland is wild, our activities are designed with safety in mind and are suited to everyone, children included. You will be accompanied by English speaking, experienced nature guide on all activities.

EVERYTHING IS TAKEN CARE OF. Breakfast, lunch, dinner, snacks – served. Transfers – of course, from the airport to the airport and all activities. All necessary equipment – we've got it. Don't worry about a thing, just relax and join the fun!

PHOTOGRAPHY ORIENTED: Our trips, safaris and Midnight Sun expedition locations are chosen with photogenic beauty in mind. We often stop to take photos of the very best spots. Our nature guides are advanced photographers, specialized capturing the Northern Lights by winter and the golden hours of Midnight Sun by summer.

"NLV is rare because everything is exactly as advertised. Glass ceiling cabin, full breakfast and dinner, thermal suits & boot & gloves available, friendly staff, and lots of snow. We were lucky to see the northern lights thru the glass on night. -- No hidden fees or 'gotcha' type dilemmas. Great experience."

Jimmy S, TripAdvisor

"The best 'glamping' you could imagine. Cabins are cozy and comfortable, the Aurora Borealis is something to behold, and the whole compound has a bit of the feel of an Arctic outpost (no kidding.)"

Docntx, TripAdvisor

"A magical place on the edge of reality where nature explodes with its most beautiful and intense colors. In this frame the Northern light village is born where you can find professionalism, extreme kindness and deep attention to the wellbeing of the guests."

300caterinam, TripAdvisor

"So beautifully built and designed. Luxury and cosyness in the same place."

Anne P., TripAdvisor

"The experience was one of the best we had in Finland and I would definitely recommend."

NettieSpagettie, TripAdvisor

"Going on a tour was by far an unbeatable highlight of my visit to Lapland."

"Wow, what an amazing birthday!! We couldn't stay at a better resort and couldn't fault anything. The cabins were exactly like we thought they would be and laying in bed looking up through the glass window at the stars at night and the Northern Lights was AMAZING! The staff were all very friendly and helpful and the food (buffet) was really good. The daytime activities were all brilliant and we couldn't have had a better time!"

Rebecca M, TripAdvisor

We did 7 activities all brilliant. Photography, which helped us set up our camera so we could take the best photos of the lights. Reindeer safari, really good fun, lovely to take in the scenery on our first day. Husky safari - Absolutely fantastic. All excursions were well organised and the guides were brilliant. It felt like a very personal service from start to finish. A big thank you for making our holiday very special and so much fun.

Leanne M, TripAdvisor

"In so many ways, the Northern Lights Village is exactly what a good small resort should be: locally owned and run, staffed by people who care deeply about their environment, and dedicated to providing friendly service in a place where creature comforts are not always possible."

Cwarrenlaw, TripAdvisor

"Just perfect! I would do that week again the exact same way."
